**4. Northeastern State University**

**a. Program Modifications Substantive**

1. **Health Organizations Administration, B.B.A. (004).** This modification will reconcile NSU's option inventory with that of OSRHE. In 2010, NSU submitted a program modification eliminating the Gerontology and Health Services Organizations options but has since discovered the option deletion forms were missing from the OSRHE packet. In 2020, the options remained on the OSRHE inventory, so NSU seeks to formally delete them through the curriculum process.
2. **Leadership, M.S. (052).** Faculty propose changes to admission processes and requirements to better delineate program requirements from the more general Graduate College requirements. In addition, they propose changing the name of the program's core set of courses and changes to course requirements in two options to strengthen the curriculum.
3. **Management, B.B.A. (054).** Faculty propose eliminating the Entrepreneurship option since the Entrepreneurship, B.B.A. degree program has been reinstated. Two options in General Management and Human Resource Management will remain.
4. **Criminal Justice, M.S. (085).** Faculty propose changes to admission processes and requirements as well as removing the comprehensive final examination as an alternative to completing a thesis. Instead students will choose between a capstone project or thesis. Faculty also propose course modifications in both the required core and elective listing. Twelve new courses that reflect modern topics in criminal justice are proposed.

5. **Accounting and Financial Analysis, M.S. (130).** This modification will reconcile NSU's option inventory with that of OSRHE. In 2007, NSU proposed three options in Certified Financial Analyst (CFA), Certified Managerial Accountant (CMA), and Certified Public Accountant (CPA). These were never implemented in NSU's catalog or systems. Unfortunately, they remain on OSRHE's option inventory for NSU. This proposal will delete them.

**b. Program Deletion**

1. **School Counseling, M. Ed. (018).** This program was suspended in March 2013 when the new Counseling, M.S. program with three options began. In checking enrollment and degree completion, it hasn't had enrollment in the past four years nor degree completers in the past three. All students who intended to complete the old program have done so, and it is time to remove it from NSU's program inventory.
2. **Substance Abuse Counseling, M.S. (146).** As with the program above, this program was suspended in March 2013 when the Counseling, M.S. program began. No students with the major have enrolled in the past four years, and the program has not had degree completers in the past three. All students enrolled in this program have graduated or transitioned to the new Counseling, M.S. program.

The Presidents are operating under the assumption the guidelines will be similar to the first round of funding. They are waiting for further guidance from the federal government.

President Pierson reported that for legislative advocacy the RUSO Presidents are working to maintain current levels of funding and advocating for equitable allocation of funds.

Regent McDermott inquired about the possibility of university sports spectators to attend home games. President Pierson reported that it depends on the athletic conferences. For example, UCO, in the Mid-America Intercollegiate Athletics Association (MIAA) conference, is allowed to have socially distanced spectators and NWOSU, in the Great American Conference (GAC,) is not. President Pierson spoke on behalf of ECU and said they would begin to allow 4 people per athlete to attend home games starting February 1, 2021. Per NCAA guidelines, this is dependent upon local conditions reported by the university presidents. Other factors taken into consideration regarding sports spectators is the facility size, security for crowd control, and cleaning protocols.

Some observe in the classroom and others take courses for credit. In the beginning this program was funded completely by private dollars, however starting in Fall 2020 NSU was able to secure funding and recognition from the Oklahoma Department of Rehabilitative Services. Each of these students are now eligible for Title IV financial aid from the federal government. NSU currently has 16 of these scholars on campus.

President Turner reported that NSU's recently completed capital campaign was very successful. In the past they were able to fund 612 scholarships. Due the campaign, they have doubled the number of scholarships to 1,214 which will help NSU reach more students.

DATE: January 15, 2021

TO: Regent Eric Fisher, Chair  
Educational Excellence Committee  
Regional University System of Oklahoma

FROM: Steve Turner, President 

SUBJECT: Educational Excellence Committee Agenda Items

The following proposals for program modifications and deletions are submitted to the Educational Excellence Committee:

**Program Modifications - Substantive**

**Health Organizations Administration, B.B.A. (004).** This modification will reconcile NSU's option inventory with that of OSRHE. In 2010, NSU submitted a program modification eliminating the Gerontology and Health Services Organizations options but has since discovered the option deletion forms were missing from the OSRHE packet. In 2020, the options remained on the OSRHE inventory, so NSU seeks to formally delete them through the curriculum process.

**Leadership, M.S. (052).** Faculty propose changes to admission processes and requirements to better delineate program requirements from the more general Graduate College requirements. In addition, they propose changing the name of the program's core set of courses and changes to course requirements in two options to strengthen the curriculum.

**Management, B.B.A. (054).** Faculty propose eliminating the Entrepreneurship option since the Entrepreneurship, B.B.A. degree program has been reinstated. Two options in General Management and Human Resource Management will remain.

**Criminal Justice, M.S. (085).** Faculty propose changes to admission processes and requirements as well as removing the comprehensive final examination as an alternative to completing a thesis. Instead students will choose between a capstone project or thesis. Faculty also propose course modifications in both the required core and elective listing. Twelve new courses that reflect modern topics in criminal justice are proposed.

**Accounting and Financial Analysis, M.S. (130).** This modification will reconcile NSU's option inventory with that of OSRHE. In 2007, NSU proposed three options in Certified Financial Analyst (CFA), Certified Managerial Accountant (CMA), and Certified Public Accountant (CPA). These were never implemented in NSU's catalog or systems. Unfortunately, they remain on OSRHE's option inventory for NSU. This proposal will delete them.

#### **Program Deletions**

**School Counseling, M. Ed. (018).** This program was suspended in March 2013 when the new Counseling, M.S. program with three options began. In checking enrollment and degree completion, it hasn't had enrollment in the past four years nor degree completers in the past three. All students who intended to complete the old program have done so, and it is time to remove it from NSU's program inventory.

**Substance Abuse Counseling, M.S. (146).** As with the program above, this program was suspended in March 2013 when the Counseling, M.S. program began. No students with the major have enrolled in the past four years, and the program has not had degree completers in the past three. All students enrolled in this program have graduated or transitioned to the new Counseling, M.S. program.

Thank you for your consideration of these proposals. If you have any questions, please contact me or Dr. Landry.
